Growing smart phone adoption to benefit Retail

To capitalise on the growing opportunity in organised retail

Indian Retail – The next boom in the industry

The Indian retail industry is estimated to be worth around US\$ 500 billion currently - Accounting for around 14-15 per cent of the country's GDP and around 8 per cent of the employment

The Indian retail industry has expanded by 10.6 per cent between 2010 and 2012 and is expected to increase to US\$ 750-850 billion by 2015 - Organized retail segment is expanding at 20% a year

Mobility Retail – Challenges remain

The mobile phone retail industry in India is a US\$ 16.7 billion segment; growing at over 20% per year in value terms . However, challenges remain on the margin front

For organised retailing, the cost structure is higher due to corporate structure as compared to standalone shops. The commissions barely cover the enhanced cost base
